PROFESSIONAL SUMMARY

Aspiring AI/ML professional with hands-on experience developing Machine Learning, Generative AI, LLMs, RAG, NLP, and Computer Vision solutions. Proficient in Python, LangChain, FastAPI, TensorFlow, Scikit-learn, and OpenCV, with practical exposure to semantic search, vector databases, prompt engineering, embeddings, and REST API development. Seeking AI/ML, Generative AI, or Data Science opportunities to build scalable, real-world AI solutions.

WORK EXPERIENCE

Data Science Intern / Solitaire Infosys Pvt. Ltd., Chandigarh

June 2025 – August 2025

- Conducted **EDA and data preprocessing** on **10+ datasets** using Python, Pandas, and NumPy.
- Built and evaluated **4+ ML models** (Regression, Decision Tree, Random Forest, and KNN) with feature engineering and model optimization.
- Created **5+ visualizations and dashboards** using Matplotlib and Seaborn to communicate actionable insights.
- Applied hyperparameter tuning and 5-fold cross-validation to improve model performance and generalization.

PROJECTS

CourseMate AI: AI-Powered Study Assistant | Python | LangChain | RAG | ChromaDB | OpenAI Embeddings | Mistral LLM

- Developed an AI-powered RAG study assistant for querying PDFs, notes, and assignments.
- Implemented semantic search, embeddings, and conversational QA, achieving 90%+ answer relevance.
- Streamlined the FastAPI backend and prompt engineering pipeline, reducing retrieval time by 75% and delivering sub-2s responses.

DentalAdvisor – RAG-Powered Dental Document Intelligence & AI Assistant | Python | LangChain | FastAPI | Mistral AI | Hugging Face

- Engineered a RAG-based platform for natural-language querying of dental documents using LangChain, Mistral AI, and Hugging Face.
- Implemented context-aware answer generation using document retrieval and vector embeddings.
- Enhanced FastAPI APIs with a React frontend and streamlined vector indexing, cutting query latency by 70%+.

AI-Powered Sign Language Interpreter | Python | OpenCV | MediaPipe | Scikit-learn

- Developed a real-time sign language interpreter using MediaPipe and Machine Learning for gesture recognition.
- Integrated hand landmark detection and Text-to-Speech (TTS) to convert sign language into text and speech.
- Optimized the inference pipeline for low-latency, high-accuracy gesture recognition and improved accessibility.

Real-Time Assistance System for Visually Impaired | Arduino | Python | OpenCV | IoT

- Engineered an IoT-based navigation assistant for visually impaired users using computer vision, OpenCV, and sensor fusion.
- Integrated real-time obstacle detection with ultrasonic sensors and speech-based feedback for hands-free navigation.
- Designed a lightweight, energy-efficient prototype built for reliable performance and accessibility.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript, C++, HTML, CSS

AI & Machine Learning: Machine Learning, Deep Learning, Generative AI, LLMs, RAG, NLP, Computer Vision, Supervised Learning, Model Optimization, Prompt Engineering

Frameworks & Libraries: TensorFlow, Scikit-learn, LangChain, FastAPI, Flask, OpenCV, Pandas, NumPy

Data & Visualization: EDA, Power BI, Tableau, Matplotlib, Seaborn

Tools: Git, GitHub, Jupyter Notebook, Google Colab, VS Code

Core Concepts: Feature Engineering, Model Evaluation, Cross-Validation, Hyperparameter Tuning, Statistics, DSA

CERTIFICATIONS & ACHIEVEMENTS

- Machine Learning Crash Course – Google
- AI & Data Science – NASBA
- Advanced IoT Systems Training – IIT Ropar
- Hackathon Winner – Recognized for developing an innovative AI-based solution
- Organized Technical Events & Workshops – KCET Amritsar

EDUCATION

Khalsa College of Engineering & Technology, Amritsar, Punjab | 2023–2027

B.E. in Artificial Intelligence & Machine Learning (Hons.) | CGPA: 8.71

Dr. Maharaja Krishan Kapoor Arya Model School, Panipat, Haryana

Intermediate (CBSE) – 82%, 2021 | Matriculation (CBSE) – 90%, 2023
